

Obligation for Company Directors to Obtain a PEC Starting from 01/01/2025

- The 2025 Budget Law stipulates that directors of all companies, whether already established or newly formed, must obtain a digital domicile, namely a PEC (Certified Email), starting from January 1, 2025.

- In fact, the PEC serves as a digital domicile, allowing the receipt of communications and documents with legal validity. The recipient cannot claim not to have received the certified email.

- Those who already have a PEC for personal reasons may use their existing PEC for their role as a company director. In this case, the only requirement is to communicate the PEC to the Business Register at the time of the director's appointment registration, together with the deed of incorporation for capital companies or the registration of the deed of incorporation for partnerships.

What Happens If the PEC Is Not Communicated to the Business Register?

- Failure to communicate the PEC may result in the Business Register refusing to register corporate practices related to the appointment of directors or liquidators without a digital domicile.
